Selection Software

Issue # 2 January 2006

Thermotech's new energy recovery wheel selection software is slated to be released in January, 2006. The software can size both single and dual wheel systems and will provide performance, dimensions and model numbers to make selection and ordering fast and easy. The software will be available on a CD which includes other Thermotech product information.

Thermotech Plans Suite at AHR EXPO in Chicago

Thermotech will be hosting a hospitality suite at the McCormick Plaza, site of the AHR EXPO January 23-25th. Drop by for a snack or refreshments and learn more about Thermotech products. You can also pick up a copy of the Thermotech product CD with the new selection software. Contact Barb Morgan for more info and suite schedule.

Thermotech Completes Major Heat Wheel Renovation at Cedars Medical Center in Miami

Thermotech, working in conjunction with BGA Engineers, Hospital Corporation of America, and Cedars Medical Center, retrofitted all of the SEMCO heat wheels and installed custom diffuser screens in the air handlers at the facility. The project started in December, 2005, was completed January, 2006, and is thought by all to be an unqualified success. Special thanks to Ramon Fernandez and his staff at Cedars, Jack Stelle, HCA and Andre LeBlanc, BGA Engineers.

Spotlight on New Manufacturers Representatives

Thermotech's family of Reps is getting bigger. We would like to welcome on board DAC Sales in New England. The President of the company, Rick McGinley, has been instrumental in working with consulting engineers on their needs for high quality reliable heat recovery wheels. Specifications based on reliability and performance are the key to getting Thermotech products sold. Hats off to DAC Sales!
