Thermotech Ramps Up Production At New Plant

The new, state of the art manufacturing plant in Oldsmar, Florida. Is now open and completed. Production was started on [T Series Thermowheels](#) in February with manufacturing and plant construction proceeding at the same time. It has made for a hectic first half of the year. Many thanks to our reps, customers, vendors and staff for your patience during this process.

Thermotech Ships Largest Assembled Wheel!

The [TF-474](#) Thermowheel with a maximum casing dimension of just under twelve feet is the largest fully assembled wheel that can be shipped by truck. Two of these massive wheels, handling over 40,000 cfm each and two smaller [TF-245](#) wheels are destined for a medical center in St. Louis. These wheels will be an integral part of four [MarCraft®](#) air handlers. The systems are scheduled for final installation and start up in late November 2005.

Newsletter Spotlight

Thermotech and Seasons-4 team up to provide energy recovery systems for Georgia Schools.

[Seasons-4](#) is a custom HVAC manufacturer based in Atlanta, Georgia. [Thermal Recovery Systems](#) our Representative in Georgia, worked with local engineers and school districts to design dual wheel systems providing state of the art energy recovery for classrooms statewide. To-date over 14 units have been installed. Each unit incorporates two [TC Series](#) wheels. One enthalpy and one sensible only.

Thermotech adds a National Sales Manager

[Barb Morgan](#) is our new National Sales Manager. She will be coordinating sales efforts with [James Rhodes](#), Director of Sales and Marketing. Barb brings a wealth of knowledge in the field of energy recovery and is focusing on providing high quality sales support to our growing rep force.

Thermotech Sets Sales Records

[Thermotech](#) has had a tremendous first half of 2005 with numerous retrofit projects in the U.S. and Canada. This coupled with excellent sales of new wheels has fueled double digit growth. Many thanks to our hard working reps.
